

COVER acoustic

wall panel

EN Acoustically effective wall panel made of 12 mm thick, high quality, at least 75 % recycled PET felt with sound absorbing properties; high quality visual and tactile surface, with clean lines and a defined sense of depth created by the V-cut; all-round 45° chamfer; large selection of colours and patterns that can be mixed and matched; to optimise room acoustics in terms of both function and design

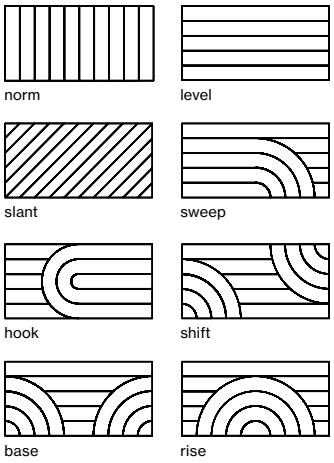

FR Panneau mural acoustique à base de feutre en PET de haute qualité, d'une épaisseur de 12 mm, composé d'au moins 75 % de PET recyclé et doté de propriétés d'absorption acoustique ; surface visuelle et tactile de grande qualité, aux lignes épurées et avec une impression de profondeur bien marquée, créée par la rainure en V ; chanfrein à 45° sur tout le périmètre ; large choix de couleurs et de motifs pouvant être combinés à volonté ; permet d'optimiser l'acoustique d'une pièce tant sur le plan fonctionnel qu'esthétique
