FRACTAL CODE

acoustic wall panel

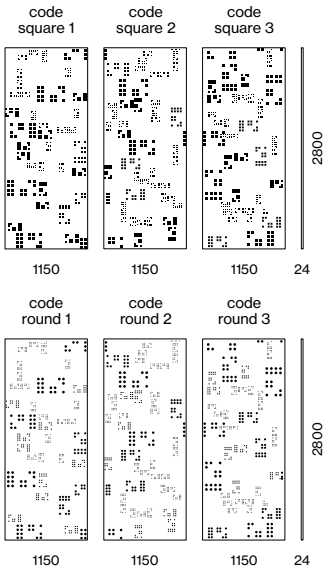

EN Acoustically effective wall panel made of high quality, at least 75 % recycled PET felt with sound absorbing properties; constructed from two 9 mm thick layers; fractal code hole pattern (choice of square or round design) inspired by nature and scientifically designed to reduce stress; 3 different panel variants for as little pattern repetition as possible; high quality visual and tactile surface; optionally monochrome or 2-coloured; can be used as a large-format wall covering to significantly improve room acoustics; on-site cutting possible

DE Akustisch wirksames Wandpaneel aus hochwertigem, mind. 75 % recycelten PET-Filz mit schallabsorbierenden Eigenschaften; Aufbau aus zwei 9 mm starken Lagen; an die Natur angelehntes, fraktales Code-Lochmuster (wahlweise quadratisch oder rund), wissenschaftlich entwickelt, um Stress zu reduzieren; 3 unterschiedliche Paneelvarianten für möglichst wenig Musterwiederholungen; optisch und haptisch hochwertige Oberfläche; wahlweise monochrom oder 2-farbig; als großformatiger Wandbelag einsetzbar, zur maßgeblichen Verbesserung der Raumakustik; bauseitiger Zuschnitt möglich
