¹ Acoustic data calculations based on FRACTAL CODE

Acoustically effective wall panel made of high quality, at least 50 % recycled PET felt with sound absorbing properties; constructed from two 9 mm thick layers; fractal code hole pattern inspired by nature and scientifically designed to reduce stress; panel variant code 1, can be combined with other variants for minimal pattern repetition; high quality visual and tactile surface; monochrome; can be used as a large-format wall covering to significantly improve room acoustics; on-site cutting possible;
