Figure 10 consists of two circular diagrams representing the angular distribution of light for different LED configurations. Both diagrams have a radial scale from 0° to 180° and a concentric scale from 0 to 1750 cd. The left diagram is labeled 'semi-recessed' and the right diagram is labeled 'surface'. Both diagrams show a blue curve for C0/C180 and a red dashed curve for C90/C270. The semi-recessed diagram shows a wider distribution of light compared to the surface diagram.

⁵ incluida la consideración de las pérdidas ópticas, las pérdidas de la unidad de control interno y la eficiencia del dispositivo operativo
